# Daily DO #40

## ORIGAMI ANIMALS

Origami is a fun, easy and inexpensive activity. It challenges you to be precise, works on your patience and allows your creativity to show. We love seeing all the creatures we can make and encourage you to find your own favorites.

When creating your animals. take care of your folds at the beginning, and the rest should be fairly easy if you follow the tutorial exactly. Making careful folds, and making sure everything is properly aligned will allow you to get best results for the final product.

Printout directions work great but some of the folds are difficult to see on paper. We used YouTube to watch and learn.

Here are links to some of our favorite animals we learned how to fold.

1. [Rhino](#)
2. [Bald Eagle](#)
3. [Dinosaur](#)
4. [Horse](#)
5. [Jumping Frog](#)

Have Fun and Happy Folding!
